1. Can a school award Federal Supplement Education Opportunity Grant (FSEOG) for both the fall and spring semesters to a Federal Pell Grant eligible student who reaches his lifetime eligibility used (LEU) after receiving a Federal Pell Grant payment during the fall semester?

2. A dependent was selected for verification for 2013–14 and the parents received an IRS extension to file their 2012 federal income tax return. Does the school have to reverify the student’s application when the parents file their 2012 return?

3. Suppose a student completes a bachelor’s degree and enrolls in a second bachelor’s degree program. If coursework completed for the first program also counts toward the second program, how does the school apply the 150 percent maximum timeframe for determining satisfactory academic progress?

4. May a school’s satisfactory academic progress policy include automatic “academic amnesty” in certain circumstances, for example, after the student has not attended a certain number of payment periods or years?

5. A student enrolls in a Master of Business Administration (MBA) program after completing a Master in Health Administration. The student did not borrow any loans while an undergraduate, and borrowed only unsubsidized loans while completing the Master in Health Administration, including the higher annual additional unsubsidized loan amount for health professions students. How do you determine the student’s remaining eligibility for an unsubsidized loan for the MBA program?
